

You are never too old!

One of several things I have always wanted to do and previously time never seemed quite right was learn to ride a motorbike.

This week I learnt how to actually ride a 2 wheeler again and also one that also goes fast!

A great experience patiently tutored and coached by Karen of Leicestershire Motorcycle Training.

Such a blast riding around local area living my best life, having fun, feeling competent and self confident. I completed my course, received a

Certificate to add to my Driving Licence and felt a great sense of achievement and totally empowered.

My next objective is already planned so watch this space. I can do anything I wish and you can too. Just **DO IT NOW!**
